

Disclosures and Resolution of Conflict of Interest

Disclosure Policy

Baptist Health has a process in place to ensure balance, independence, objectivity and scientific rigor in CME programming. Through this process Baptist Health identifies and, when applicable, resolves conflicts of interest of all individuals in a position to control or influence CME content, including faculty, conference directors, planners, content reviewers, CME Committee members and the CME Department staff. The CME Department is responsible for this course, content review and, when necessary, makes modifications to resolve conflicts of interest so final course and presentations are fair and un-biased. These efforts are intended to affirm that the educational content is not controlled or influenced – directly or indirectly – by a commercial interest.

As defined by the ACCME, a commercial interest is any entity producing, marketing, reselling or distributing healthcare goods or services consumed by, or used on, patients. The ACCME does not consider providers of clinical service directly to patients to be commercial interests.

Copyright and HIPAA

Baptist Health assumes no responsibility or liability for violation and copyright and/or HIPAA laws. Faculty members are responsible for all images/illustrations and content included in their presentations.

Relevant Financial Relationships

The following individuals involved in the planning, development, review, presentation, authoring and/or editing of the conference content have disclosed relevant financial relationships with commercial interest companies, and the CME Department has resolved these potential conflicts of interest. *Indicates their presentations **will include** discussion of off-label or unapproved usage.
