BaptistHealth.net/MiamiNeuro

On behalf of the **Miami Neuroscience Symposium** planning group, we cordially invite companies to support this dynamic continuing medical education event.

Course Overview

This symposium offers a broad curriculum focusing on state-of-the-art, evidence-based practices for clinicians and healthcare professionals who treat and care for neuroscience patients from the emergency department through rehabilitation. The expert faculty will engage participants through complex cases, novel treatment strategies and lively panel discussions.

The goal of the program is to share the most innovative and evidence-based clinical practices that have been implemented and are available to optimize patient outcomes throughout all areas of neuroscience.

Networking Opportunities ■ Corporate Support

You will have an opportunity to network with the physicians, leaders and healthcare providers affiliated with Miami Neuroscience Institute and Marcus Neuroscience Institute, as well as from around South Florida's medical community, around the United States and international cities. You will be well-positioned to showcase your company's products and services as they apply to neurology, and specifically to strokes, aneurysms, movement disorders and spine.

Sponsorship options and Exhibit packages are available at multiple levels, providing unique access to distinct and significant recognition at the symposium. Additionally, Industry Product Theater opportunities are available. Companies that provide support at or above \$15,000 would also be recognized for one year as a Corporate Philanthropy Partners program member of Baptist Health. Complete details are provided on the following pages.

Thank you for your consideration,
