Our Mission

The mission of Baptist Health is to improve the health and well-being of individuals, and to promote the sanctity and preservation of life, in the communities we serve. Baptist Health is a faith-based organization guided by the spirit of Jesus Christ and the Judeo-Christian ethic. We are committed to maintaining the highest standards of clinical and service excellence, rooted in the utmost integrity and moral practice.

Consistent with its spiritual foundation, Baptist Health is dedicated to providing high-quality, cost-effective, compassionate healthcare services to all, regardless of religion, creed, race or national origin, including, as permitted by its resources, charity care to those in need.

Through its CME Department, Baptist Health supports the sustained development of accredited, unbiased continuing education (CME/CE) programming for doctors and healthcare teams to foster improvements in provider competence and performance and ultimately healthcare outcomes. Employing an interprofessional approach to continuing education development, the CME Department supports educational interventions to improve quality of care, patient safety and the value of healthcare. This is accomplished through organized educational activities that focus on both existing and new diagnostic and therapeutic modalities as well as population health concerns. Responsive to the ever-changing healthcare environment and Baptist Health's institutional needs, the CME Department collaborates with departments and committees across the health system to align workplace CME/CE with the delivery of optimal clinical care, reduction of medical errors, improvements in the patient experience and adherence to evidence-based standards of care and resource utilization.
