Content Review	Yes / No	<i>If No, indicate areas of concern & recommendations:</i>
Is this presentation fair, balanced and free of commercial bias?	Yes No	
Are recommendations for patient care based on current science, evidence, and clinical reasoning, while giving a fair and balanced view of diagnostic and therapeutic options?	Yes No	
Does all scientific research referred to, reported, or used in this educational activity in support or justification of a patient care recommendation conform to the generally accepted standards of experimental design, data collection, analysis, and interpretation?	Yes No	
Are new and evolving topics for which there is a lower (or absent) evidence base, clearly identified as such within the education and individual presentations?	Yes No	
Does the educational activity avoid advocating for, or promoting, practices that are not, or not yet, adequately based on current science, evidence, and clinical reasoning?	Yes No	
Does the activity exclude any advocacy for, or promotion of, unscientific approaches to diagnosis or therapy, or recommendations, treatment, or manners of practicing healthcare that are determined to have risks or dangers that outweigh the benefits or are known to be ineffective in the treatment of patients?	Yes No	

*[Definition of CME](#). CME represents that body of knowledge and skills generally recognized and accepted by the profession as within the basic medical sciences, the discipline of clinical medicine, and the provision of health care to the public.
